## SPONSOR A FUTURE LEADER PROGRAM

### What we do

Students are at the center of what we do at Partnership for the Future (PFF). Through PFF, local high school students are provided with college prep courses, personal development workshops, one-on-one counseling and savings incentives. With the help of our business and university partners, we arrange college visits and workplace internships for our students to help them easily transition from high school to college to the workplace.

### What our students say about PFF

"Years ago I was heading down the route to a quick death. I was the teen who wanted to follow the neighborhood gang members, who did not want to go to school, did not think twice about graduating or even making it to high school. I had a wake up call. I did make it to high school and graduated in the top of my class as a well respected student. That would not have happened without the help of Partnership for the Future. I entered the program as a sophomore like every other student and graduated as a mature adult. The program helped me to excel not only academically but in the community and business world as well. It's not everyday that you are given the chance to work for Fortune 500 companies or have lunch with the CEO of billion dollar law firms. Partnership for the Future gave me that chance."

-Written by Sean S. in a response letter to an article published in the Richmond Times Dispatch.

I learned that "our future is a function of choices not our circumstances."

-Anonymous Student's comment after participating in the PFF Institute

"I was never able to officially show my gratitude towards Partnership for the Future, but I stand before you today just to say thank you and you were a true blessing to my life."

-Presented by Darryl S. at a Virginia College Access Network Conference
